

# Jessica Wilson

I enjoy bringing people together through code. Whether it's supporting cookie ordering in a pandemic for a local legend or bringing websites in line with modern accessibility standards, I take pride in ensuring that communities always stay connected.

## EXPERIENCE

### mdg, Remote — *Web Developer*

2024 - PRESENT

### Forbes Tate Partners, Remote — *Web Developer*

2023 - 2024

Plan and execute development work within budget for clients, including a complete rebuild of the FTP site

Build meaningful client relationships through real-time customer support, developer lead trainings, and user-friendly documentation leading to increased client retention

Create support and maintenance processes to ensure work is aligned with company standards

### COLAB, Richmond, VA — *Web Developer*

2019 - 2023

Plan and execute development work within budget for 100+ clients including a complete site rebrand for Architect.io and animated ads

Audit and improve existing web applications to meet evolving accessibility, performance, and security standards through planned weekly sprints

Identify technical debt and risks to projects and plan remediation approaches

## EDUCATION

### General Assembly, *Front-End Web Development Course*

2017

Learned the foundations of HTML, CSS, and JavaScript, along with responsive design and version control with Git and GitHub

### University of Virginia, Charlottesville — *B.A Media Studies*

2013 - 2017

Dean's List 2017
